In the name of ALLAH, the Entirely Merciful, the Especially Merciful

ACKNOWLEDGEMENT

Thanks to Almighty ALLAH (the most Beneficent and Merciful), and to the Holy Prophet MUHAMMAD (Peace be upon him), who is source of guidance for the whole humanity. It is our pleasure to acknowledge the help of many people without whom this manuscript could have never been completed. I am deeply indebted to my university fellows especially at GIFT University Gujranwala and others to help me in provision of alumni proforma and guidance to compile this report for their time and effort in collaborating timely needed inputs & utmost support.

Specifically, we express our heartiest gratitude to our leadership Mr. Nadeem Mustafa, Director, Quality Enhancement Cell (QEC) for his guidance, keen interest, best cooperation, and constructive criticism during this tenure. The author is also grateful to Mr. Muhammad Jawad Mirza, a Lahore based leading statistician, for his guidance in statistical analysis. Lastly, I would like to say special thanks to Mr. Mubeen Anwer, Ms. Syeda Tanzeem Batool and Mr. Haroon Pervaiz to help me in provision of data, communication and coordination with alumnus and other administrative units of the University.

Muhammad Umair Danish
May, 2021

GIFT UNIVERSITY AT A GLANCE

GIFT University established in 2002 [1] with the vision to bring about a visible change in the society by offering quality education to the youth of the Gujranwala division and also to become a leading educational institute of the region. Looking back at the year 2002 we see no university between Lahore and Islamabad region which can educate the young souls and prepare them to play their meaningful role in the development and progress of the industry. GIFT university takes pride to be the first university in the region and is now the BEST University of this region with W4 ranking and recognition from HEC. GIFT University also takes pride to be the only chartered university of Gujranwala.

Gujranwala division is one of the major industrial hubs of Pakistan which requires talented and professionally trained human resource to meet the challenges and expectations of modern world consumers. GIFT University maintains a close liaison with the industry including the Gujranwala Chamber of Commerce and Industry, Gujranwala Business Center, Federation of Pakistan Chambers of Commerce and Industry, SMEDA, NPO and a number of other organizations. By actively engaging with the industry, GIFT University CRD (Corporate Relations Department) aids students in enlisting for internships or getting job placements to get practical experience.

GIFT University with a mission to provide international standard education to the youth of this region has provided modern world facilities, internationally experienced faculty, and best infrastructure to ensure the quality of education for the youth and young professionals of this region.

VISION AND MISSION OF UNIVERSITY

Vision

To bring about a change in society by becoming a leading educational and research institution that utilizes the latest technology and provides intellectually stimulating, professionally relevant and progressive and innovative education that is consistent with our national values and is accessible to all.

Mission

- Employ highly qualified faculty with established research credentials
- Hire competent and professional administrative staff
- Ensure quality intake of students
- Utilize the latest technology in teaching, research and administration
- Provide adequate infrastructure and facilities for teaching and learning
- Establish linkages with industry and collaborate with national and international institutions
- Provide state of the art library, computer laboratories and other research resources
- Develop professionally relevant and updated curricula recognized at national and international levels
- Create conducive research environment
- Set up mechanisms and policies to ensure sustainable growth
- Reinforce ethical and national values
- Provide scholarships and financial assistance based on need and merit
- Adopt established and innovative pedagogical practices leading to independent and life-long learning
- Produce graduates with strong analytical skills
- Establish support systems for job placement of graduates

EXECUTIVE SUMMARY

Overview:

The Alumni Survey was conducted in accordance with the guidelines given by the Higher Education Commission to understand and measure quality of academic programs. As per mandate, the Quality Enhancement Cell (QEC) is responsible to assure the system of self-assessment, internal reporting and improvement. Alumni Survey is one of most important tools used in self-evaluation of academic programs.

In keeping with efforts to increase alumni engagement and to assess quality of programs by their assistance, the Quality Enhancement Cell (QEC) conducted the Alumni Feedback Survey every two years. Alumni Survey form has been developed by the Higher Education Commission (HEC) and procedural details are provided in Self-Assessment Manual already published by the HEC. [2]

Methods:

Alumni Survey contains eight parts that includes Knowledge, Communication Skills, Interpersonal Skills, Management/Leadership Skills, General Comments, Career Opportunities, Department Status and alumni information (Optional). Alumnus were contacted through email, phone call and short message service (SMS), The survey was rolled out on March 1, 2021 through email, to all GIFT alumnus (graduates of 2009 till 2020) with valid emails, and administered through the month of April. Out of a total of 2763 alumni records, the survey could be delivered to 2378 alumni with valid emails, over fifteen hundred alumni were reminded through phone calls, and SMS were also delivered on their registered contact number. 478 alumni attempted to fill the survey, out of which only 470 completed it fully by the stipulated time period, resulting in an overall response rate of 19.76%. [3]

After extensive analysis using a powerful data analysis packages that includes pandas, numpy, plotly, bokeh, seaborn and matplotlib, some important trends were identified from the survey responses, which have been presented in this report. The QEC intends to use these insights for taking corrective actions and hopes to continue the efforts to obtain Alumni feedback and work in tandem for GIFT's betterment.

Results:

The analysis showed in the table (2-7) and overall improvement in knowledge, communication, interpersonal and leadership skills gained by the most of graduates. An overall average of 27% of the responded expressed great confidence in the facilities provided by the university, their response was excellent at Likert scale. Similarly, 37% said that it was very good and 21% said that it was good, which proves that the university administration has been able to provide best facilities to its students to some extent, arguing that the university needed to work harder in some areas.

Conclusion:

The alumni feedback processes have shown a positive impact in their overall performance and are effective mechanism for keeping the teachers and administration to work for the collective objective towards their achieving objectives. The reasons for the slight decline in the last section have remained unearthed in the current study and need to be explored through qualitative studies.

1 INTRODUCTION

1.1 Background

Alumni survey is one of the feedback mechanisms devised to improve the system of imparting education in a higher education institution. It is a statistical survey of graduates from undergraduate and postgraduate degree programs. [4] The survey attempts to contact all recipients of bachelors, master and doctoral qualifications approximately some months after graduation. It aims to gather statistics on the employment, current salary, experience, knowledge, communication, interpersonal, leadership skills and study activities of graduates, and their subjective opinions on the value of their qualifications. The survey is delivered by Higher Education Commission of Pakistan to help universities and degree awarding institutes to fulfil their requirement to report on the outcomes of higher education to the regulatory bodies. [2]

1.2 Motivation

Taking part in the Alumni survey is an essential part of higher education journey. As the one of the leading general University of Pakistan, Internal Quality Assurance is the important need for improving education and services, the collective graduate voice is powerful and will directly impact the future of education for prospective students. This survey is unique because it picks up with you shortly after you finished your studies. This allows you to reflect on the value your studies have played in your current activities, how this compares to your original plans and how you're using skills you've picked up whilst in education. Only you will know if you left education with the skills and knowledge you needed to get you to where you are now. [4]

1.3 Objectives

The main objectives of our institutional research are as under:

- To get statistics on knowledge gained by the graduates
- To get statistics on communication, interpersonal and leadership skills gained by the graduates
- To find out Job market trends
- To find graduate satisfaction level on services provided by the department

- To find areas of improvement through measurable data

1.4 Tools

To find out survey results, following tools has been used in this project:

- Microsoft Office 2019 (Excel and Word)
- Visual Studio Code [5]
- Google Colab (Online) [6]
- PANDAS package of Python for Data Analysis [7]
- Plotly, Bokeh, Matplotlib, Seaborn for generating interactive bar and pie charts [8]
- Matrices and Graphs

1.4.1 SCALE

Likert Scale is used to measure this survey, which is given below: More than 3 score is considered satisfaction of the respondent.

Category	Coded Value
Excellent	5
Very Good	4
Good	3
Fair	2
Poor	1

Table 1 Likert Scale

1.5 Part Wise Results (at University Level)

The questionnaire consists of eight parts and the details of each part is given below:

1.5.1 Knowledge

In these section six questions were asked. In the first question measure the knowledge of mathematics, science and social sciences obtained by the graduates. The second question tested the graduate's ability to solve problems well. The third question then asked how far they could understand and analyze the data. While in the fourth question he was asked about his ability to transform theory into practice, it was a very important question. The five questions are about people who are working in senior positions. It was asked how they can build a system in a good way. Lastly, it was asked to give opinion on IT knowledge. Overall results showing that majority of respondents were satisfied.

Question Text	Excellent	Very good	Good	Fair	Poor
I- Math, Science, Humanities and professional discipline	21%	44%	24%	8%	3%
II- Problem formulation and solving skills	26%	41%	22%	6%	5%
III- Collecting and Analyzing appropriate data	27%	40%	22%	8%	3%
IV- Ability to link theory and practice.	24%	34%	29%	9%	4%
V- Ability to design a system components or process	19%	38%	26%	14%	4%
VI- IT Knowledge	18%	35%	32%	11%	5%

Table 2 General Analysis on Part I

1.5.2 Communication Skills

In this section, two question were asked to understand oral, written communication of the graduates, and third question was asked about ability of presentation among graduates. This is one of most essential ability to succeed in the professional life. Overall results are showing that majority of responded have these skills.

Question Text	Excellent	Very good	Good	Fair	Poor
I-Oral Communication	33%	37%	20%	7%	3%
II-Report Writing	22%	38%	26%	10%	4%
III- Presentation Skills	34%	32%	23%	8%	3%

Table 3 General Analysis Part II

1.5.3 Interpersonal Skills

In this section, four questions were asked. First question was graduate’s ability to work in team, second question focuses on ability of graduate to work in challenging situation. Whereas, third question was relating to independent thinking, whilst four question concentrating on ethical values gained by the graduate. Overall results are showing that majority of graduates were satisfied.

Question Text	Excellent	Very good	Good	Fair	Poor
I- Ability to work in teams.	44%	35%	13%	5%	3%
II- Ability to work in arduous / challenging Situation	34%	37%	21%	6%	3%
III- Independent thinking	37%	36%	17%	7%	3%
IV- Appreciation of ethical values	38%	41%	13%	6%	2%

Table 4 General Analysis Part III

1.5.4 Leadership Skills

In this section, three questions were asked that include time management, judgment and discipline. These are leadership skills and important for building and managing teams. Overall results are showing that majority of graduates were satisfied.

Question Text	Excellent	Very good	Good	Fair	Poor
I- Resource and Time management skills.	34%	38%	20%	6%	3%
II- Judgment	27%	41%	21%	8%	3%
III- Discipline	35%	38%	17%	8%	3%

Table 5 General Analysis Part IV

1.6.5 Department Status

The department status has four questions and their results are given below:

Question Text	Excellent	Very good	Good	Fair	Poor
I- Infrastructure	27%	38%	18%	8%	9%
II- Faculty	31%	33%	18%	7%	11%
III- Repute at National Level	14%	27%	27%	17%	15%
IV- Repute at International level	13%	20%	27%	22%	18%

2.1 Program Wise Respondents

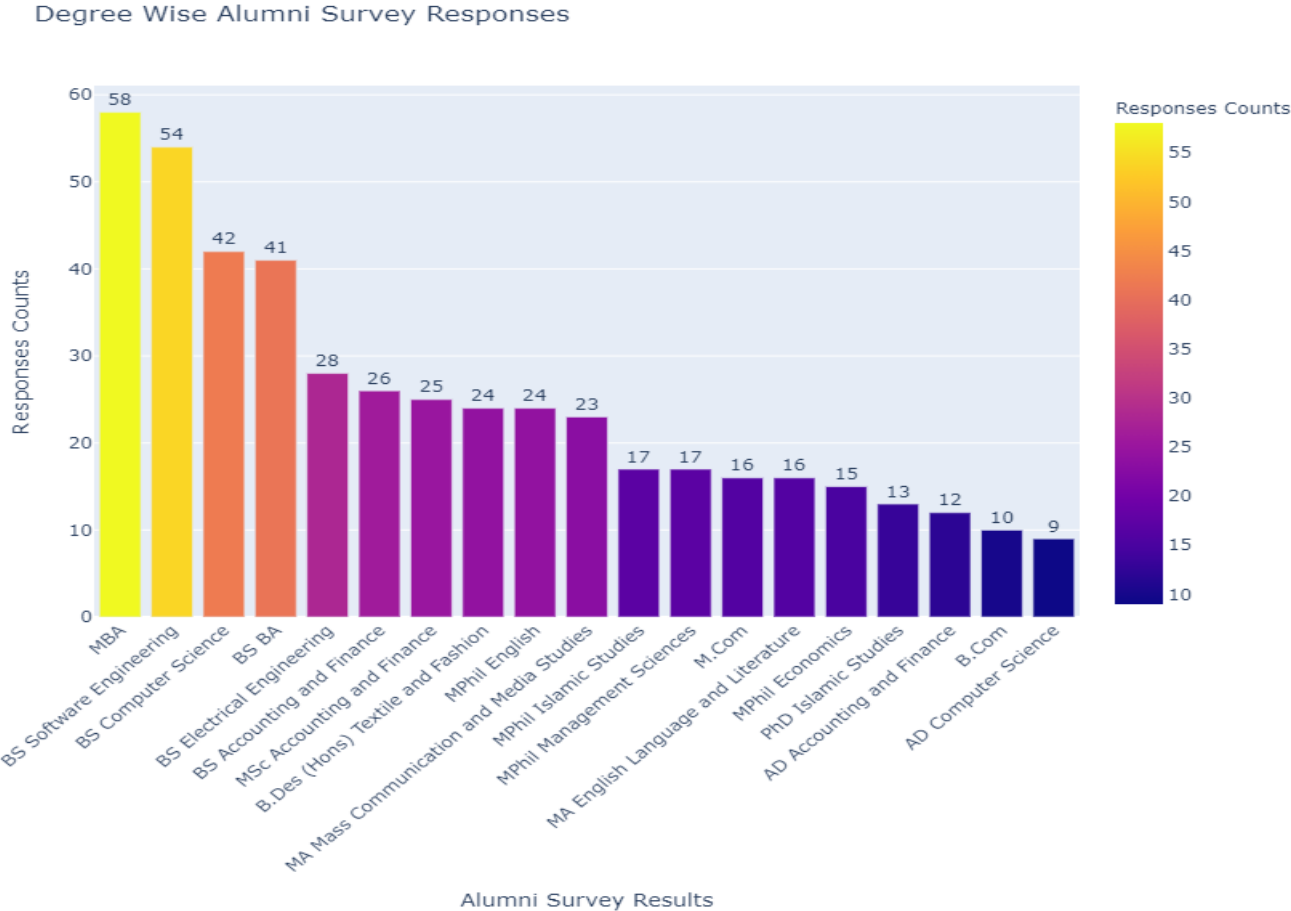

Figure 1 Program Wise Response Count

Figure 1 Program Wise Response Count illustrates that a Master of Business Administration (MBA) graduates responded to this form 12.34 percent, and B. Com graduates responded to this form at a minimum of only 2.13 percent. Whilst overall response rate is 19.76%.

Table 16 Program Wise Response Count and Percentages

Program of Study	Responses	Percentages
MBA	58	12.34%
BS Software Engineering	54	11.49%
BS Computer Science	42	8.94%
BS BA	41	8.72%
BS Electrical Engineering	28	5.96%
BS Accounting and Finance	26	5.53%
MSc Accounting and Finance	25	5.32%
B. Des (Hons) Textile and Fashion	24	5.11%
MPhil English	24	5.11%
MA Mass Communication and Media Studies	23	4.89%
MPhil Islamic Studies	17	3.62%
MPhil Management Sciences	17	3.62%
M.Com	16	3.40%
MA English Language and Literature	16	3.40%
MPhil Economics	15	3.19%
PhD Islamic Studies	13	2.77%
AD Accounting and Finance	12	2.55%
B. Com	10	2.13%
AD Computer Science	9	1.91%
Total	470	100.00%

Table: Program Wise Response Count and Percentages illustrates that Computer Science graduates (BS Software Engineering, BS Computer Science, AD Computer Science) have significantly responded 22.34% of the total. This shows their interest in engagement with GIFT University, Whilst, Interestingly, GIFT Business School's program MBA is on top with a maximum of 58 responses and 12.34%, but B. Com responses are 10 or 2.13% which has been offered by the same unit.

However, the response rate in Humanities and Social Sciences, Fashion Arts, Design and Architecture, Electrical Engineering, Mass Communication and Media Studies remain considerable.

Recommendations:

1. The Quality Enhancement Cell (QEC), alumni office should enhance their engagement with Bachelor of Commerce's Students.

2.2 Alumnus Response on Employment (AT UNIVERSITY LEVEL)

It can be said that the efforts made by the university administration to improve the quality are visible in this visualize pie chart and a table 2. About half of the graduates (49.5%) managed to get a job, while 26% of people are connected to their business.

But we should pay the most attention to the fact that more than 23% of the people are still unemployed. They should be approached in this way and steps should be taken to connect them with the industry and departments.

Employment Status

3. KNOWLEDGE

3.1 Mathematics, Science and Professional Discipline

According to the results of the survey, 3.4% of the people are not satisfied while 8.1 did not express their satisfaction and marked fair, in addition remaining expressed confidence in their capabilities of mathematics, science and professional discipline ranging to various scales good, very good and excellent are 24%,43.8% and 20.6% respectively.

Knowledge Mathematics, Science and Humanities

Figure 3 Knowledge of Math, Science and Professional Discipline (Overall)

3.2 Problem Formulation and Solving Skills

According to the results of the survey, 4.7% of the people are not satisfied while 6.2 did not express their satisfaction and marked fair, in addition remaining expressed confidence in their capabilities of problem formulation and solving skills ranging to various scales good, very good and excellent are 21.1%, 40.9% and 26.2% respectively.

Problem formulation and solving skills

Figure 4 Problem formulation and solving skills (Overall)

3.3 Collecting and Analyzing appropriate data

The majority of students who responded to this survey indicated they have skills to collect and analyze appropriate data. Almost 80% of the respondents said they were satisfied with the education they received at GIFT and subsequently they have developed very important research and data analyzing skills. Whilst, 16% of graduates said that they are not satisfied and 7% of the total remains neutral.

Collecting and Analyzing appropriate data

Figure 5 Collecting and analyzing appropriate data (Overall)

3.4 Ability to link theory and practice

Most people expressed satisfaction. 86% responded said they were satisfied with the education received and they have the ability to turn theory into practice.

But at the same time, 4% responded were unhappy, therefore the departments should look into it and improve themselves.

Ability to link theory and practice

Figure 6 Ability to link theory and Practice
(Overall)

3.5 Ability to design a system components or process

Most people expressed satisfaction. 82% responded said they were satisfied with the education received and they have the ability design a system components or process.

But at the same time, 4% responded were unhappy, therefore the departments should look into it and improve themselves.

Ability to design a system components or process

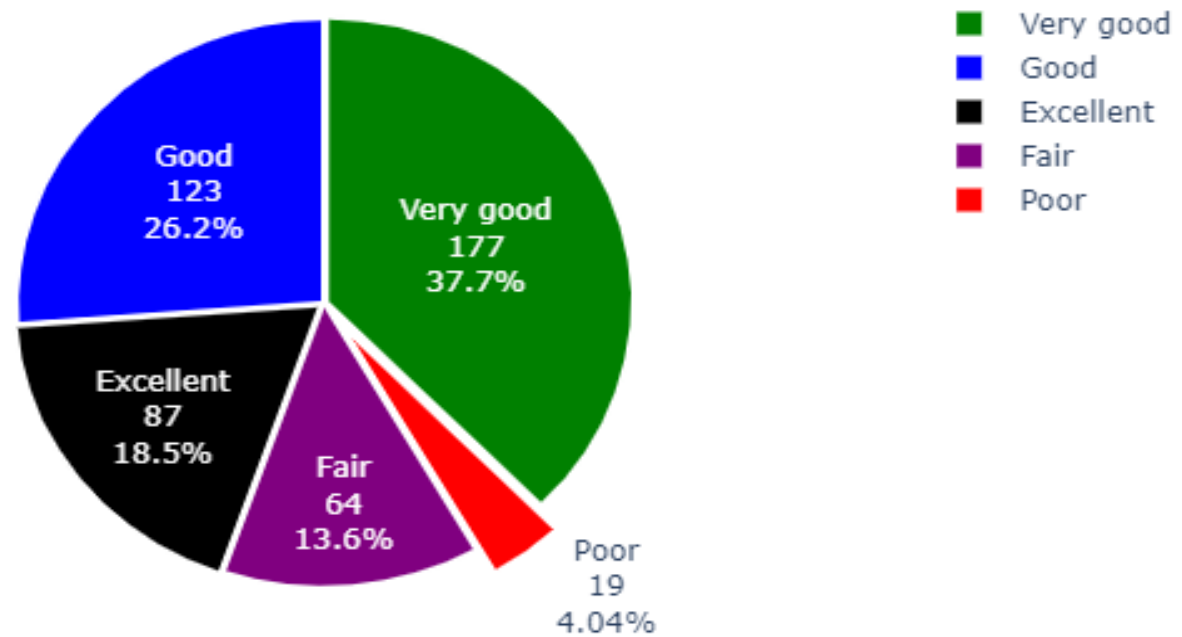

Figure 7 Ability to design a system component or process (Overall)

3.6 Knowledge of Information Technology

Most people expressed satisfaction. 82% responded said they were satisfied with the education received and they have the knowledge of Information Technology.

But at the same time, 4% responded were unhappy, therefore the departments should look into it and improve themselves.

Knowledge of Information Technology

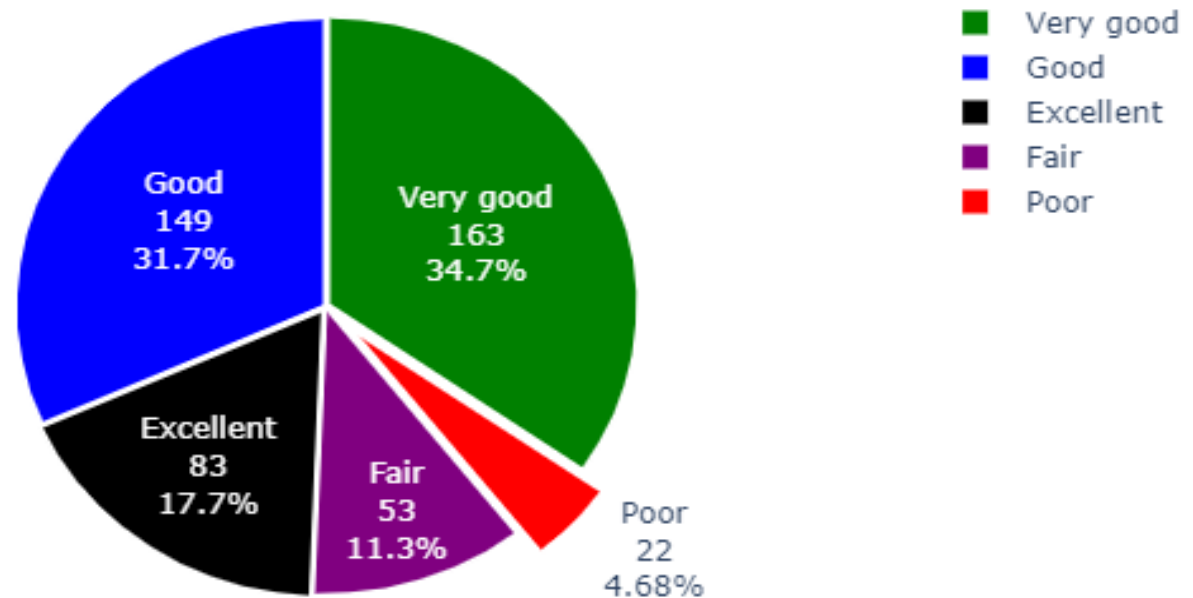

Figure 8 Information Technology's Knowledge (Overall)

4. COMMUNICATION SKILLS

At the excellent (Likert scale), Report Writing Ability among graduates decreased, now it is to be seen why we have not been able to give our students the ability to perform according to modern trends. However, oral communication and Presentation Skills have been a much better.

Overall, more than 80% of the graduates expressed confidence in the education imparted by the university. A State-of-the-art statistical bar chart given below for further details.

Figure 9 Communication Skills (Overall)

Likert Scale	Oral Communication	Report Writing	Presentation Skills
Excellent	157	105	160
Very Good	174	179	150
Good	92	121	108
Fair	31	46	37
Poor	16	19	15

Table 18 Communication Skills (Overall)

5. INTERPERSONAL SKILLS

At the Good (Likert scale), Ability to work in team among graduates decreased, now it is to be seen why we have not been able to give our students the ability to perform according to modern trends. However, Ability to work in challenging situation, Independent thinking, Appreciation of ethical value have been a much better. Overall, more than 80% of the graduates expressed confidence in the education imparted by the university. A State-of-the-art statistical bar chart given below for further details.

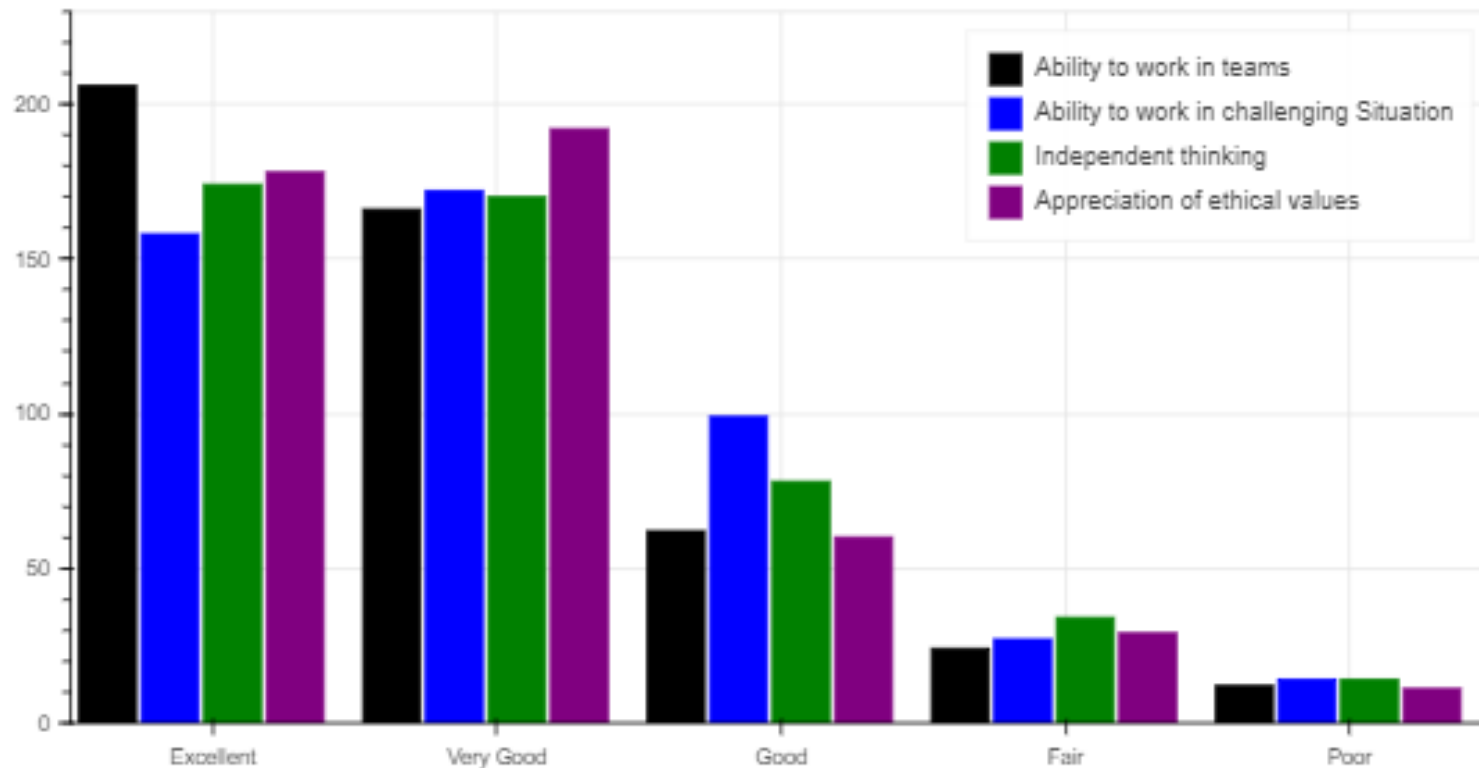

Figure 10 Interpersonal Skills (Overall)

Likert Scale	Ability to work in teams.	Ability to work in arduous and challenging Situation	Independent thinking	Appreciation of ethical values
Excellent	206	158	174	178
Very good	166	172	170	192
Good	62	99	78	60
Fair	24	27	34	29
Poor	12	14	14	11

Table 19 Interpersonal Skills (Overall)

6. LEADERSHIP SKILLS

At the Excellent (Likert scale), Judgment among graduates decreased, now it is to be seen why we have not been able to give our students the ability to perform according to modern trends. However, Discipline and Time Management have been a much better. Overall, more than 80% of the graduates expressed confidence in the education imparted by the university. A State-of-the-art statistical bar chart given below for further details.

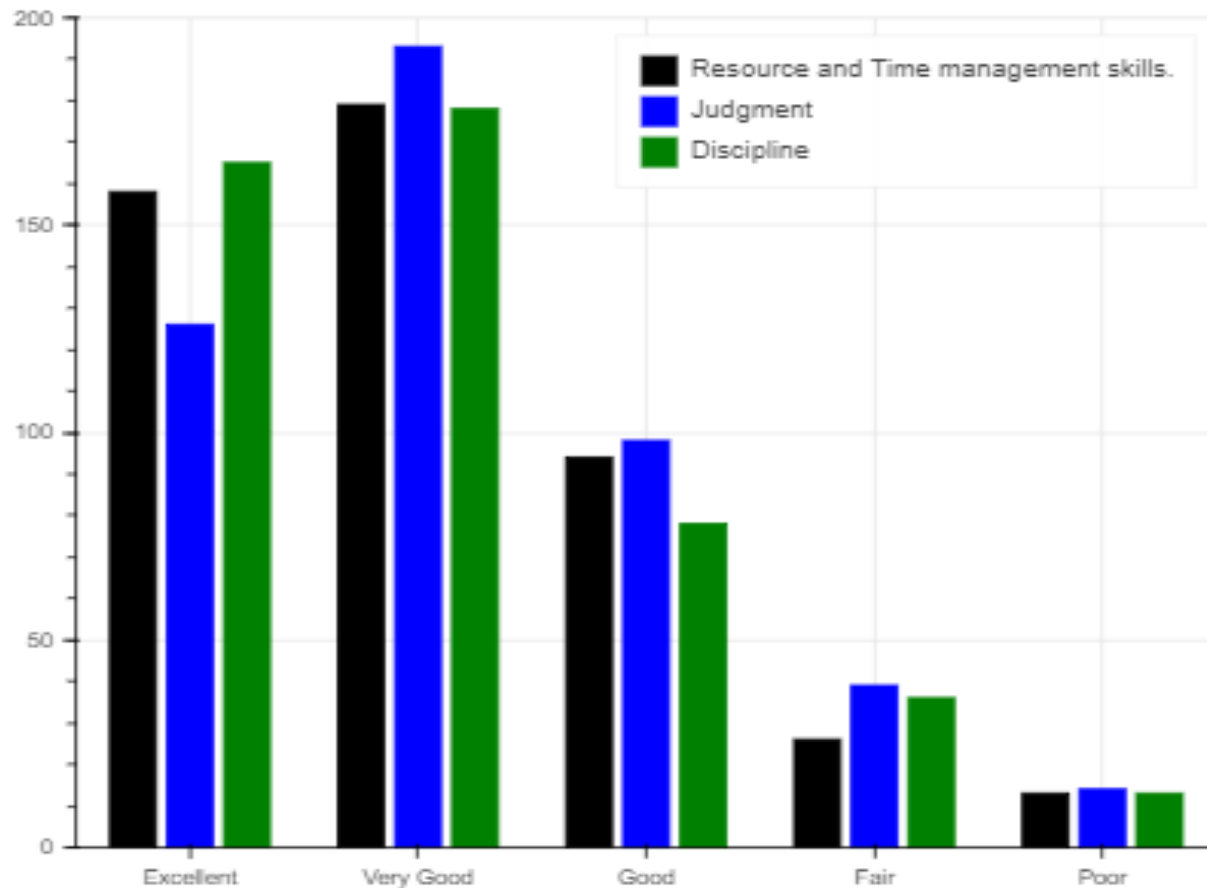

Figure 11 Leadership Skills (Overall)

Likert Scale	Resource and Time management	Judgment	Discipline
Excellent	158	126	165
Very good	179	193	178
Good	94	98	78
Fair	26	39	36
Poor	13	14	13

Table 20 Leadership Skills (Overall)

7. University Status

7.1 Infrastructure

As a result of this survey more than 80% of the respondents think that the Infrastructure is competitive but according to 8pc's opinion it needs to be further improved

A state-of-the-art statistical Pie Chart have been created with the help of plotly package of python, as shown below.

I- Infrastructure

Figure 12 Infrastructure (Overall)

7.2 Faculty

More than 80% of the respondents have expressed their satisfaction on the faculty and appreciated their skills in comments. A total of 51 graduates and 10 percent did not express confidence in abilities of faculty.

A state-of-the-art statistical Pie Chart have been created with the help of plotly package of python, as shown below.

II- Faculty

Figure 13 Faculty (Overall)

7.3 Repute at National Level

A total of 129 and 27.4% graduates expressed satisfaction over the repute of the University at National Level.

A total of 70 graduates, and 14.9 percent, are not satisfied with repute of University at National level. Unfortunately, only 13.8% graduates are expressing satisfaction at the Likert scale Excellent. A state-of-the-art statistical Pie Chart have been created with the help of plotly package of python, as shown below.

III- Repute at National Level

Figure 14 Repute at National Level (Overall)

7.3 Repute at International Level

A total of 125 and 27.2% graduates expressed satisfaction over the repute of the University at National Level.

A total of 83 graduates, and 18 percent, are not satisfied with repute of University at International level. Unfortunately, only 12.8% graduates are expressing satisfaction at the Likert scale Excellent. A state-of-the-art statistical Pie Chart have been created with the help of plotly package of python, as shown below.

IV- Repute at International level

Figure 15 Repute at International Level (Overall)

8.1.7 GENERAL COMMENTS AND CAREER OPPORTUNITIES

This part has four questions. Statistical Information is given in below table.

Did you gain sufficient knowledge about your field in your study program? Please comment.							
Program of Study	Positive Feedback		Negative Feedback		Others		Total
BS Software Engineering	36	68%	17	32%	0	0%	53

Table 23 General Comments I (BS Software Engineering)

Are there adequate Career Opportunities in your field of you study?							
Program of Study	Positive Feedback		Negative Feedback		Others		Total
BS Software Engineering	42	79%	10	19%	1	2%	53

Table 24 Career Opportunities I (BS Software Engineering)

What support did you receive from the University in finding and securing the right career opportunities?							
Program of Study	Positive Feedback		Negative Feedback		Others		Total
BS Software Engineering	21	40%	29	56%	2	4%	52

Table 25 Career Opportunities II (BS Software Engineering)

II- What are the new courses that you recommend to be included in your study program?
Network's communication
Robotics
Stack Development
UI UX Design
ML, deep learning, AI
System Administration, Ethical Hacking
Data science
Agile Project Management
Deep Learning, Block chain, ML
Artificial intelligence and Machine learning.
Data Science
Machine Learning
System Programming

Table 26 New Courses Recommended for BS Software Engineering

8.2 Bachelor of Science in Computer Science

Question Text	Excellent		Very good		Good		Fair		Poor		Mean
	Coded Value	Percentage	Coded Value	Percentage	Coded Value	Percentage	Coded Value	Percentage	Coded Value	Percentage	Central Tendency

9. CONCLUSION

The questionnaire consisted of questions related to eight areas: Knowledge, Communication Skills, Interpersonal Skills, Leadership Skills, General Comments, Career Opportunities, Department Status. The analysis showed an overall improvement in knowledge, communication, interpersonal and leadership skills gained by most of the graduates. An overall average of 27% of the respondents expressed great confidence in the facilities provided by the university, their response was excellent at Likert scale. Similarly, 37% said that it was very good and 21% said that it was good, which proves that the university administration has been able to provide the best facilities to its students to some extent, arguing that the university needed to work harder in some areas. More than 80pc of respondents show great confidence on knowledge gained during their stay at GIFT University. There are some improvements required in report writing skills. As this skill was slightly low ranked as compared to Oral Communication and Presentation. More than 85pc respondents also express confidence in their intern personal and leadership skills. However, there is a need to comprehend and improve the department's reputation both nationally and internationally. The alumni feedback processes have shown a positive impact in their overall performance and are an effective mechanism for keeping the teachers and administration to work for the collective objective towards their achieving objectives. The reasons for the slight decline in the last section have remained unearthed in the current study and need to be explored through qualitative studies. Lastly, as a result of survey analysis, we also got multi class data which will be useful in employer surveys.

THE QUALITY ENHANCEMENT CELL (QEC)

Introduction:

To uphold the quality of higher education, GIFT University instituted The Quality Enhancement Cell (QEC) in 2012 as per orders from Higher Education Commission (HEC). This cell at GIFT University is accountable to develop a methodical and efficient approach to monitor and report the quality of the University's academia. The operational function of this particular cell is to enhance, evaluate and augment the quality of academic core curriculum and learning; research and examination; management and departmental execution. To confront the rising global academic change, QEC aims at adopting the best strategies to convene the international academic standards of higher education. Moreover, it is designed to reinforce the research trends, ethical research module, and internal managerial goals.

Responsibilities of Quality Enhancement Cell (QEC):

- Ensuring improved and safeguarded standards of awarded degrees.
- Reviewing the quality of coaching, teaching, and learning in each subject area.
- To set policy standards to be carried out by each department as a point of reference.
- Setting out the qualification framework (attributes and abilities of students) and curriculum roadmaps for offered programs.

Accreditations & Affiliations

- Higher Education Commission (HEC)
- Punjab Higher Education Commission (PHEC)
- Higher Education Department (HED), Government of the Punjab
- Pakistan Engineering Council (PEC)
- National Computing Education Accreditation Council (NCEAC)

QEC Staff Profiles:

Mr. Nadeem Mustafa (Director QEC) is a graduate from Cardiff Business School, University of Wales UK, where he obtained a Master's in Business Administration with concentration in Marketing. He is an accomplished Marketing and Management professional with over 29 years of experience in leading and managing the organizations; developing and implementing strategic marketing plans; creating, strengthening & revitalizing bands; planning and executing marketing communication campaigns; and growing & managing sales.

Mr. Muhammad Umair Danish (Assistant Director QEC) has earned MS degree by Research in Software Engineering from University of Lahore, and BS degree in Software Engineering from COMSATS University Islamabad, Pakistan. He has been previously working in medical image processing, deep learning, data science and image restoration projects, especially in the domain of image classification by using convolutional neural networks. He has more than seven years of experience of working in higher education. Out of this, he has purely four years of experience of working in Quality Enhancement Cell.

Mr. Mubeen Anwar (Assistant Manager) is a graduate of GIFT University Gujranwala and has earned a M. Phil Degree in Economics with Research work. He has over ten years' experience of working in education, administration, warehouse management and student counseling. He also has experience of working in academic operation department of the GIFT University for three years. He is currently associated with QEC as an Assistant Manager.

Mr. Haroon Pervaiz (Admin Assistant) have a Bachelor's Degree in Arts from AIOU Islamabad and he is associated with QEC as an Admin Assistant.
